20 August 1985

MEMORANDUM FOR: Deputy Director
Intelligence Community Staff

FROM: Executive Secretary
National Foreign Intelligence Board

SUBJECT: Processing of the Director of Central Intelligence Directives

1. Harvey Ginsburg tells me that he talked with you while I was on leave about publishing the DCIDs and that you wished to be assured that they had been coordinated appropriately with the NFIB organizations. It is my understanding after questioning members of Walt Elder's former staff--most of the DCIDs had been completed before I assumed my current position a year ago--that all the DCIDs were coordinated properly and were approved by Deputy Director of Central Intelligence McMahon. I can testify personally that such was the case for the several I saw through to completion. I hope this memorandum satisfies your concern.

2. I have redrafted the attached covering memorandum to the DCI to make explicit that the DCIDs have been coordinated and approved by the DDCI.

3. If I can be of additional assistance, please call on me.

Mark J. Sullivan, Jr.
